

## EAC Minutes 11/8/2021

Attending: Chris Giacomponello, Peggy Hartzel, Beth Engle, Diana Cormack

Guest: Carol Petrow

meeting called to order by chairman Engle at 7:35

The minutes from the September were approved as corrected.

Diana will continue as secretary until Norma is able to resume her position

Carol will continue to research the stream naming and she and Diana will go to the History Commission to discuss this project when they are finished with their grant.

Discussion of possible people for the open spot on the Council. So far no one approached has definitely agreed.

Suggestions for possibilities can be sent to Beth.

Chris will take over ownership of the dropbox and will provide some instruction on how to use it. Anyone on the Council who can't access it should contact him.

Discussion on water testing and well management. The Chester County website only lists 2 labs in the county, one of which is questionable. It was decided that this would be a good program for late winter via zoom. Peggy and Carol will look into a speaker, possibly from Penn State.

Meeting adjourned at 8:50
