

# Township Welcomes a New Tractor!

News Release Date

03-18-2024

The Township Road Crew can't wait for the grass to start growing so they can use the Township's new New Holland cab tractor with loader and mower boom attachment.

The mower replaces a much older model that was nickel-and-diming the Township with constant repairs. The new mower will be used for roadside mowing, loading stone, and can accommodate other attachments in the future.

Here is long-time road crew member, Richard Shreiner, trying out the new equipment.
